RE: Addendum #1 to Bid NO. 2024-11 Charles Springs Boat Ramp Improvements

To whom it may concern,

Please note the following questions that have been submitted and the corresponding answers, along with adjustments to plans and specifications, regarding Bid 2024-11 Charles Springs Boat Ramp Improvements, Suwannee County, FL.

Questions

1. **If there are delays due to river levels, will the time for construction be adjusted?**

ANSWER: If it is agreed by the County and the Contractor that river levels have prevented the reasonable progress of construction activities, construction time may be adjusted to allow for the lost time.

2. **Can the entire park be closed for construction?**

ANSWER: No, only the general area around the boat ramp and timber stairs can be closed off to the public. If a larger area is needed, the county may approve at their discretion.

3. **Will Clearing and Grubbing be required for the Flexamat and gangway installations?**

ANSWER: Yes, the clearing and grubbing is ancillary to the Flexamat, rip-rap and gangways.

4. **Will the County be responsible for relocating the garbage can beside the walkway?**

ANSWER: Yes. This will be completed prior to construction commencement.

Board of County Commissioners

13150 80th Terrace Live Oak, FL 32060

Plans

1. The following adjustments shall be applied to the existing plans:
 - a. The milling of existing asphalt called out on Sheet C4 shall be removed from the bid. The contractor will be required to remove the asphalt within 10' of the top of the concrete ramp to allow for a smooth transition. The cost of the asphalt removal shall be included in the asphalt curb removal bid item.

Specifications

1. The following revisions have been made to the bid form. Please replace the previously provided bid form with the attached.
 - a. MILL EX. ASPHALT PAVEMENT has been removed from the bid.
 - b. ASPHALT SP 9.5 (1.5") has been increased to 27 tons.

Sincerely,

Holland Freeman
Suwannee County Administrative Associate
