

Suwannee County Board of County Commissioners  
Greg Scott, County Administrator  
Franklin White, Chairman

Suwannee County recently entered into a contract for debris hauling services, which are expected to begin tomorrow (Tuesday, September 12) throughout the County and including all municipalities. Residents in Suwannee can have tree & vegetative debris and construction debris – in separate piles – placed by the curb for this service. At this time there is not a set schedule or map of areas to be collected at certain times, but we will update if this becomes available.

**Some notes on making the pickup process easier:**

- Do not mix materials together, keep tree debris and construction materials separate
- General solid waste pickup services are running as normal, do not put household trash or recycling in the piles
- Place the debris near the street curb, but clear of your mailbox, fire hydrants, or any other obstruction that could be damaged by the pickup equipment
- Do not park vehicles in front of the debris

Other resources available include the Disaster Recovery Center, located at the Agricultural Colosseum in Live Oak. The address is 1302 11<sup>th</sup> Street, and the DRC will be open through at least September 30, 2023 from 9 a.m. to 7 p.m. daily. Agencies on site include:

- FEMA Federal Emergency Management Agency
- Hazard Mitigation
- Small Business Administration
- American Red Cross
- Department Of Children And Families
- Agency for Persons with Disabilities
- US Department of Veterans Affairs
- and more...

There are still some water and supplies available at a self-service point of distribution located at this same address, but as demand for supplies dwindles, this may phase out. The best place to point residents to for the latest Idalia Response resources is <https://suwanneecountyfl.gov/>, and those on social media are encouraged to follow <https://www.facebook.com/suwEOC>.
